MESSAGE

FROM

THE DIRECTOR

NEK MOHAMMAD

Dear Aspiring Medical Students,

As you set your sights on pursuing an MBBS degree abroad, I want to assure you that we are here to support you every step of the way. Our institution is dedicated to guiding you through the admission process, providing you with the resources and expertise needed to navigate this exciting journey. Studying medicine in a global context not only enriches your education but also broadens your perspective on healthcare.

Embrace this opportunity with enthusiasm and determination. Remember, the path to becoming a physician is challenging, but with hard work and perseverance, your dreams are within reach. We are committed to helping you achieve your goals and look forward to welcoming you into our community of future medical professionals.

"Giving up is the only sure way to fail."

Russia is a great power, and is considered a potential superpower. It is ranked very high in the Human Development Index, with a universal healthcare system, and a free university education. Russia's economy is the world's eleventh-largest by nominal GDP and the sixth-largest by PPP. Russia's extensive mineral and energy resources are the world's largest and it is one of the leading producers of oil and natural gas globally. It is a permanent member of the United Nations Security Council, a member of G20, SCO, Council of Europe, APEC, OSCE, IIB and WTO as well as the leading member of CIS, CSTO, and EAEU.

Russia's research and development budget is the world's ninth-highest, with an expenditure of approximately 422 billion rubles on domestic research and development. In 2019, Russia was ranked tenth worldwide in the number of scientific publications. Since 1904, Nobel Prizes are awarded to twenty-six Soviets and Russians in physics, chemistry, medicine, economy, literature and peace.

Every year thousands of international applicants from all over the world enter Russian universities. Russian education is known for its centuries-old history, classical traditions, strong scientific base and high level of training. The years of experience are closely linked to modern technology, comfortable campuses and innovative laboratories.

In 2014 the Pearson rated Russia's education as the 8th-best in Europe and the 13th-best in the world. In 2016 the US company Bloomberg rated Russia's higher education as the third-best in the world. In 2014 Russia ranked as the 6th most-popular destination for international students.

Eligibility Criteria to study MBBS in Russia 2025-26

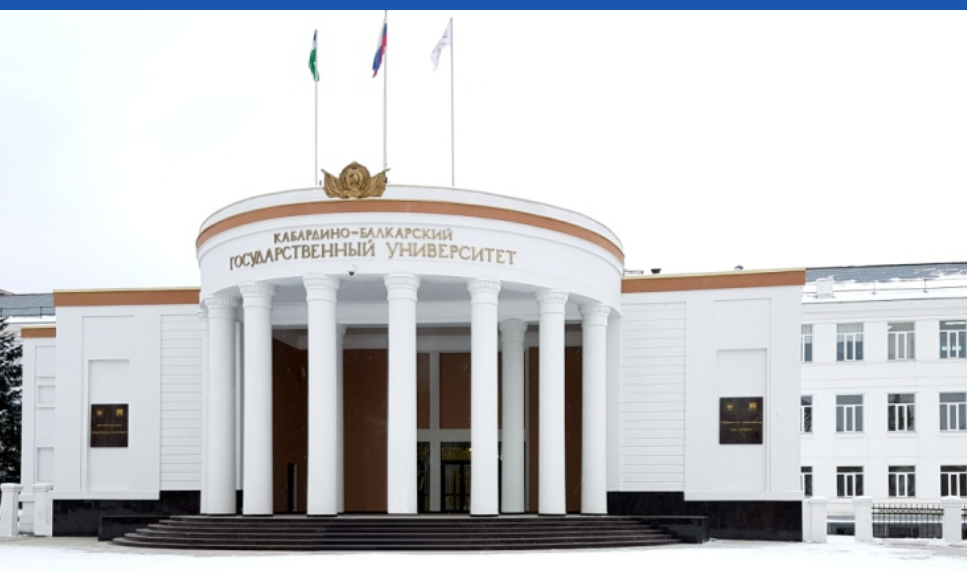

- **Applicant must be 17 or above as on 31st December of the year of admission process.**
- **Clearing NEET qualification is mandatory for admission in MBBS at Russian Govt. Universities for students who want to practice profession on returning to India.**
- **A minimum of 50% in 10+2 is required for General category and 45% for SC/ST category for studying MBBS in Russia. Cost of MBBS in Russia is also affordable than many countries including UK and USA. The average annual fee for MBBS in Russia ranges between 2,50,000 Ruble to 5,90,000 Ruble per year. (approx value of Ruble is equivalent to INR)**

Ivanovo is a city in Russia. It is the administrative center and largest city of Ivanovo Oblast, located 254 kilometers northeast of Moscow and approximately 100 kilometers from Yaroslavl, Vladimir and Kostroma. Until 1932, it was previously known as Ivanovo-Voznesensk. It is the youngest city of the Golden Ring of Russia. The city lies on the Uvod River, in the centre of the eponymous oblast. Ivanovo gained city status in 1871, and emerged as a major centre for textile production and began to be referred as the "Russian Manchester". The city is served by Ivanovo Yuzhny Airport.

Ivanovo State Medical University was established in 1930. The Academy is situated in the central part of Russia, not far from Moscow – the capital of the Russian Federation. It takes about 3 hours from Moscow by bus.

From that time to nowadays the University trained more than 25000 doctors. Now almost 3000 students are trained at the University. The teaching staff of the University includes more than 400 instructors, among them 70 Doctors of Science and more than 270 Candidates of Science. There are three libraries, three student's hostels, sports center in the University.

The North-Western State Medical University named after I. I. Mechnikov (NWSMU), St. Petersburg. (NWSMU), is a public university located in St. Petersburg, Russian Federation. The NWSMU is one of the oldest and largest Russian Higher Medical Schools. It is often called the Second Medical College in St. Petersburg because of its renaming in 1920, relative to Saint Petersburg State Medical University, which is called the First Medical College.

More than 35,000 physicians graduated from the university. Since beginning the international program in 1947 there have been more than 3500 international graduates from more than 50 countries. Currently there is a total student population of over 5,000. The university was established in 1907 following a merger of SPSMA with the St. Petersburg Medical Academy for Postgraduate Studies.

The NWSMU was established in 1907 under the direction of academician Vladimir Bekhterev and developed by the Russian Government through the Ministry of Health on the basis of the laws of Russian Federation.

KAZAN STATE MEDICAL UNIVERSITY

- ✓ Established in 1814
- ✓ Situated at Kazan City West of Russia
- ✓ Distance from Moscow 900km
- ✓ Fully English Medium
- ✓ Moderate Temperatures (-15 to +25)
- ✓ Time Difference with India is - 02 Hr 45 Mins
- ✓ Many Indian Students Studying
- ✓ Seperate Hostel for Indian Students with Indian Mess

The university was founded in 1804 as Imperial Kazan University, which makes it the second oldest continuously existing tertiary education institution in Russia. Founder of nonEuclidean geometry Nikolai Ivanovich Lobachevsky served there as the rector from 1827 until 1846. In 1925, the university was renamed in honour of its student Vladimir Ilyich Ulyanov (Lenin). The university is known as the birthplace of organic chemistry due to works by Aleksandr Butlerov, Vladimir Markovnikov, Aleksandr Arbuzov, and the birthplace of electron spin resonance discovered by Evgeny Zavoisky. In 2023 it was ranked as the #860 university in the world by US News & World Report.

As of early 2023, the university comprised 20 primary educational units, 3 of which were territorial branches, including one overseas branch in Uzbekistan. More than 52,000 students were enrolled in over 600 degree programs at undergraduate and postgraduate level (including doctoral and double-degree programs with partner universities); the number of international students was about 11,500 from 101 countries. Current research priorities are biomedicine, materials science, hydrocarbon industry, new energy sources, IT and cyber-physical systems, and comprehensive development of human potential.
